

Quality, HSE- and Environmental Policy

QUALITY POLICY

FIRECOM AS commit to meet requirements in relevant standards, laws and authority requirements, and to continual improve our quality management system.

We are dedicated to providing a high quality and delivery on time of products and services and do our best to full fill the needs and expectations of customer requirements and interested parties with high professional competence and good business ethics.

HSE POLICY

Health, Safety and Environment shall be an integrated element in all planning and implementing of our activities to prevention of injury, accident and ill health caused by our products and services and continual improvement in HSE management system.

FIRECOM AS shall accomplish this through complying with applicable legal requirements and visible leader involvement, carrying out systematic internal control measures, risk evaluations and efforts to continuously identify and reduce health hazards and environmental risks.

We have a “zero philosophy” to injuries and accidents.

ENVIRONMENTAL POLICY

Our commitment to comply with the applicable laws and regulations, continual improve environment and prevent pollution.

We shall minimize the impact our activities, products and services have on environment, create a positive environmental culture and take actions when Environmental hazard are identified.

Asle Aarthun
